

Review Committee

Aspirations

Division of Student Life

- Opportunity for a comprehensive review of the programs and services we offer in preventing, intervening and responding to all forms of sexual misconduct
- A review of our local, state and federal obligations regarding compliance, reporting and accountability and a judgment of how well the UO is complying with those expectations
- A gap analysis of the areas in which improvement is needed to ensure best practices
- A validation of areas of achievement, compliance and accomplishment in the areas of prevention, intervention and responding to sexual misconduct

This review is an opportunity for us to experience an unbiased examination of what we do and how we do it; determine that we are or are not doing and accomplishing what we said we should accomplish in the area of sexual misconduct; and learn about those things that we need/must do in order to ensure a healthy, safe campus free of sexual violence and misconduct.

We welcome your frank, open and incisive feedback.
